Palatine Heads of Families

From

Governor Hunter's Ration Lists

June, 1710 to September, 1714

Compiled from the records in London and Presented to the descendants of the Palatines by
BOYD EHLE. C. E.

Historians in general and descendants of the Palatines in particular have long felt a desire for a more complete list of those Palatine emigrants who settled in New York and along the Hudson under the patronage of Queen Anne of 1710. Documentary History of New York, Vol. III gives a census of those in New York, also those in West Camp but no mention is made of those in East Camp although it is known that there were unlisted settlement on the east side.

During the summer of 1931 Mr. Boyd Ehle through his London agents caused a search of the records there with the result that the ledger accounts of Governor Hunter were consulted and all the names of heads of families drawing rations were copied. Mr. Ehle has arranged them in alphabetical order and indicated their place of residence by the symbols to be found following the name in case where residence is known as follows:

E---East Camp. Soldiers in Canadian Expedition of 1711.

W---West Camp.

N. New York City.

These locations are from the census reports in Doc. Hist., Vol 3. Those not designated are presumed to have been residents of east Camp. No census of this camp has been discovered, but by eliminating those of known location the balance must belong to East Camp.

This kindly service on the part of Mr. Ehle is duly acknowledged by the Enterprise and News on behalf of the descendants of the Palatinate. Surely no kindlier service can be imagined and not only those living today but those who will follow will find reason to be grateful for the thoughtfulness of Mr. Ehle in preserving the precious knowledge for the descendants.

London Letter

The letter accompanying the Ration Lists from the London compilers will be of interest and is here given:

Colonial Office Class 5

Vols. 1230-1231.

(Badly classified--1731 is first in the point of order).

These two folio volumes, clearly written and bound in undressed calf are the statement of Gov. Hunter's account against the Government for the subsistence to the Palatines 1710-1713 each having the certificates and the seal of New York in red wax, as noted in Dr. Andrew's Guide." The first is the Journal or account book, No. 1231, the other (1230) is the ledger, each name being

posted up in alphabetical order. Both these show the number drawn for by the heads of families or the recipient thus:--2 adults 2 young (i.e. under 10 years): 3 adults 1 young; 1 adults, as the case may be.

Vol. 1231

This journal, as it is called is divided under the following headings:
